

700 East; 9400 South to Carnation

Project Description:

Roadway reconstruction with widening and bridge placement

This project will reconstruct and widen the roadway on 700 East between 9400 South and Carnation. A new double-span bridge across Dimple Dell will replace the old box culvert. Preparation work on the bridge began this fall, with most of construction on the bridge and roadway scheduled to take place in spring-summer 2006. Improvements include:

- Widening and reconstruction of the roadway to a consistent cross section of two lanes in each direction with a center turn lane and raised medians
- Construction of a new bridge spanning Dimple Dell
- 10-foot shoulders to accommodate designated one-way bike lanes and bus service on each side of the road
- Curb, gutter, park strips and six-foot sidewalks on both sides of the roadway
- Signal and intersection improvements at 9800 South and Carnation Drive
- Street lighting to increase visibility, and improve pedestrian and auto safety

Total Project Budget:

\$13.8 million

Anticipated Schedule:

- Construct storm drain - November 2005 to April 2006
- Relocate utilities - December 2005 to April 2006
- Construct Bridge - January to October 2006
- Construct east half of roadway - March to June 2006
- Construct west half of roadway - June to September 2006
- Dimple Dell trail landscaping - September to October 2006
- Striping and signs - October 2006

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.
